26 April 1963

MEMORANDUM FOR: SSA/DDS

SUBJECT : Storage of Effects - Mr. [REDACTED]  
Travel Order NE 338-63

25X1A9a

REFERENCE : HR 22-11

1. It is respectfully requested that the decision of 22 April (noted on the attached Routing and Record Sheet) be reviewed with the intention of either changing the decision or rewriting the regulation so that the decision can be reversed.

2. In a situation such as the one presented, the paramount consideration must be given to the method that best serves the interests of the United States Government. Usually, this means the method that saves money. We, as stewards of United States Government funds, would be remiss to insist on administration decisions that force higher costs when the wishes of the individual employee involved can be served at a lower cost.

3. We assume that the Chief, PMB, Transportation Division, had the regulation rewritten, "to specifically exclude action of the type requested," to eliminate the detailed and onerous computation that is necessary in order to determine the financial advantage to the United States Government. We propose, therefore, that such computation be made the responsibility of the authorizing official.
